66 *Reflections was an amazing community for my mom. The owners and staff were always informative, caring, and considerate towards mom and me too. I loved visiting and being a part of mom's life while she was there - no longer as a stressed out caregiver myself, but resuming my role as a loving daughter. I had full confidence in the abilities of each one there, and so appreciated their excellent communication to keep me updated and informed.*

OUR HISTORY

In approximately 1910, Dr. William Clayton Orr purchased an entire block of land to build this beautiful home for his growing family. The house served as his primary residence as well as a place for Dr. Orr's medical practice offices. The property stayed in the family until 1941 and then served as Cornwall Hospital and a women's retirement home. Today, our beautifully preserved building continues to thrive as a prime historic structure in the heart of Leesburg.

In July 2020 the building gained new owners who purchased the former Sunrise Assisted Living Community and renamed it Reflections. Sheetal and Roshan Patel spearheaded an extensive restoration of the building and in less than a year, the Patel's updated the interior and replaced the roof - all while remaining faithful to the original historic design of the building.

As a potential resident, family member or visitor we want you to feel that this is your home. We invite you to experience the Reflections life and see how each of our team members makes our mission of "One Caring Family" a reality.
